- Proposed siting zone for Springwell Substation and Main Collector Compound
- Proposed siting zone for BESS
- Proposed area for Satellite Compound

- NOTE:**
1. The location of features shown are indicative only. Exact locations to be confirmed on site.
 2. Additional features may be present on site that have not been identified on the plan.
 3. This plan illustrates one way that the authorised development could be built out within the constraints of the Control Documents contained within the DCO Application, however, consent is not sought for this layout.
 4. The plan has been drawn to OS MasterMap data and Land Registry boundaries. In some locations the OS MasterMap data and Land Registry boundaries differ from the Aerial Photography which can result in the linework not aligning to the aerial base map.
